

Instrument Set 4

Tunneling Technique Set

Gingival recession is a condition frequently observed on implants in particular. If implants in the aesthetic zone are affected, this quite often requires corrective soft tissue surgery in order to restore the success of the implant therapy from an aesthetic point of view.

The tunneling technique is a surgical option that enables you to thicken the very thin gingival soft tissue. In addition, connective tissue grafts can be harvested from the palate to transfer them into the prepared tunnel for complete coverage of the recession and simultaneous thickening of the gingival tissue.

KLS Martin offers an instrument set specially adapted to the requirements of this procedure.

Set 4: Tunneling Technique Set

consisting of:

Item No.	Qty	Designation
38-050-01-07	1	Periosteal elevator, Allen, 2 mm
38-051-01-07	1	Periosteal elevator, Allen, 3 mm
38-050-02-07	1	Tunneling instrument, Iglhaut
38-052-02-07	1	Tunneling instrument, Iglhaut, Fig. 1
38-051-02-07	1	Tunneling instrument, Iglhaut, Fig. 2
38-050-03-07	1	Gum knife, Allen-Iglhaut, Fig. 1
38-050-04-07	1	Gum knife, Allen-Iglhaut, Fig. 2
43-784-02-07	1	Curette, McCall, Fig. 17 S / 18 S
43-300-01-07	1	Periodontal probe, Iglhaut

MiniSet sterile container MicroStop®

55-861-50-04	1	Container 310 x 189 x 70 mm
--------------	---	-----------------------------

Accessories container

55-864-01-04	1	Coding label for cover, with text: Tunneling technique set
55-864-05-04	1	Coding label for front, with text: Tunneling technique set
55-864-11-04	1	Logistics framelets for cover, white

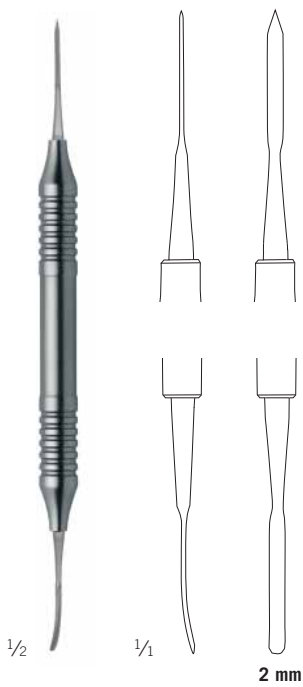

Mesh tray

55-015-10-01	1	Mesh tray 277 x 171 x 30 mm
--------------	---	-----------------------------

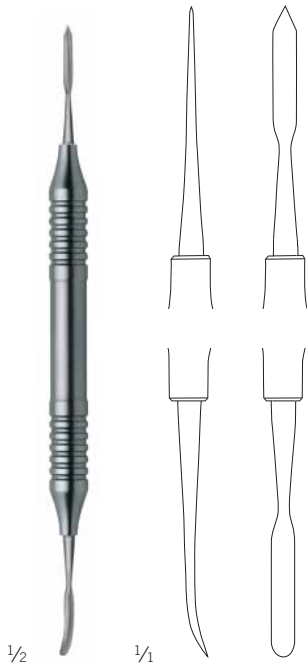

Accessories mesh tray

55-004-03-04	2	Bottom strip for instrument fixation, transverse, 162 mm
55-005-02-04	2	Plug-in element without support (16/pack)
55-006-02-04	1	Spring element, transverse, 162 mm
55-008-01-04	1	Stop frame, transverse, 162 mm

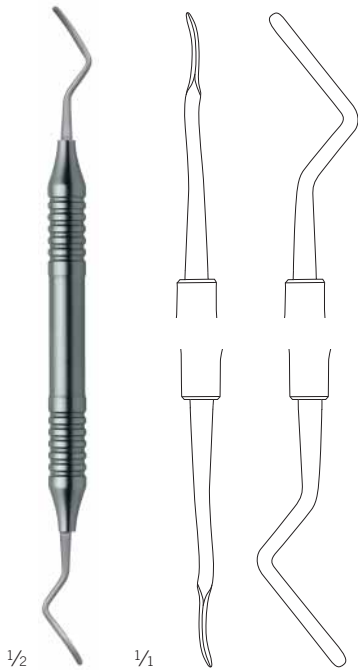

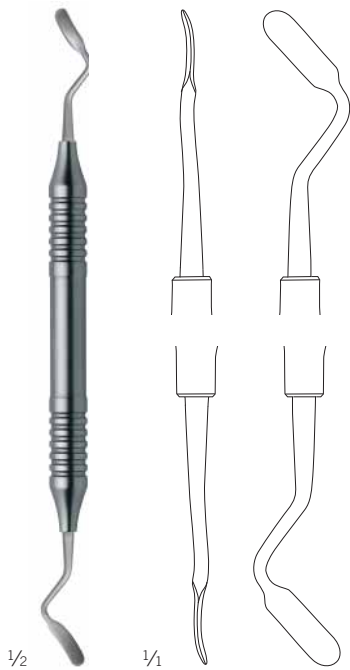

Allen
38-050-01-07
18 cm / 7 1/8"
Periosteal elevator

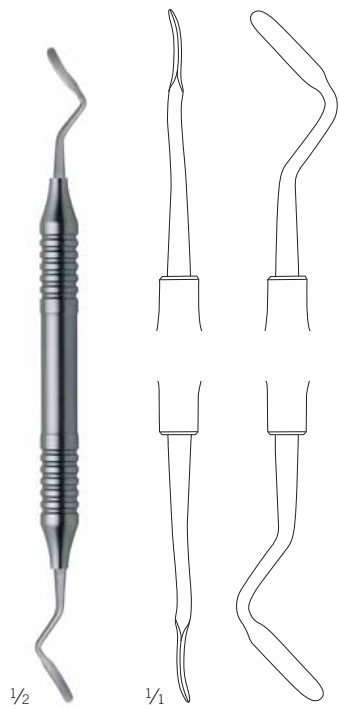

Allen
38-051-01-07
18 cm / 7 1/8"
Periosteal elevator
